PROXY STATEMENT

2011 ANNUAL MEETING OF STOCKHOLDERS

General

We are furnishing this Proxy Statement and the enclosed proxy in connection with the solicitation of proxies by our Board of Directors, or Board, for use at the Annual Meeting of Stockholders of Corcept Therapeutics Incorporated, or the Company, to be held on May 19, 2011 at 8:00 a.m. local time, at our headquarters located at 149 Commonwealth Drive, Menlo Park, California 94025 and at any adjournments thereof, or the Annual Meeting. This proxy statement and accompanying proxy card are being first mailed to stockholders on or about April 18, 2011.

Who Can Vote

Only holders of our common stock as of the close of business on April 11, 2011, or the Record Date, are entitled to vote at the Annual Meeting. Stockholders who hold shares of our common stock in "street name" may vote at the Annual Meeting only if they hold a valid proxy from their broker.

Shares Outstanding and Quorum

As of the Record Date, there were 83,968,540 shares of common stock outstanding. A majority of the outstanding shares of common stock entitled to vote at the Annual Meeting must be present in person or by proxy in order for there to be a quorum at the meeting. Stockholders of record who are present at the meeting in person or by proxy and who abstain from voting, including brokers holding customers' shares of record who cause abstentions to be recorded at the meeting, will be included in the number of shares present at the meeting for purposes of determining whether a quorum is present.

Voting Rights

Each stockholder of record is entitled to one vote at the Annual Meeting for each share of common stock held by such stockholder on the Record Date. Stockholders do not have cumulative voting rights. Stockholders may vote their shares by using the proxy card enclosed with this Proxy Statement. All proxies we receive which are properly voted, whether by signed proxy card, by telephonic or internet voting, that have not been revoked will be voted in accordance with the instructions contained in the proxy. If a proxy is received which does not specify a vote or an abstention, the shares represented by that proxy will be voted (a) for the nominees to the Board listed on the proxy card and in this Proxy Statement, (b) for the approval, on a non-binding advisory basis, of the compensation of our named executive officers as disclosed in this Proxy Statement, (c) for the approval, on a non-binding advisory basis, of a triennial say on pay advisory vote and (d) for the ratification of the appointment of Ernst & Young LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2011. We are not aware, as of the date hereof, of any matters to be voted upon at the Annual Meeting other than those stated in this Proxy Statement and the accompanying Notice of Annual Meeting of Stockholders. If any other matters are properly brought before the Annual Meeting, the enclosed proxy card gives discretionary authority to the persons named as proxies to vote the shares represented by the proxy card in their discretion.

Votes Required to Approve Each Proposal

Under Delaware law and our Amended and Restated Certificate of Incorporation and Amended and Restated Bylaws, if a quorum exists at the Annual Meeting, (a) the nominees for director who receive the greatest number of votes cast will be elected to the Board and (b) the proposals (1) to approve, on a non-binding advisory basis, the compensation of our named executive officers as disclosed in this proxy statement, (2) to approve, on a non-binding advisory basis, the frequency of future say on pay advisory votes and (3) to ratify the appointment of Ernst & Young LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2011 will be approved if each proposal receives the affirmative vote of the majority of the votes cast affirmatively or negatively. However, if none of the alternatives for the frequency of future say on pay advisory votes (one year, two years or three years) receive a majority vote, we will consider the frequency that receives the greatest number of votes by stockholders to be the frequency that has been approved by stockholders.

Abstentions and broker non-votes will have no impact on the election of directors since they have not been cast in favor of or against any nominee. Abstentions and broker non-votes will likewise not have any effect on any of the proposals to (a) approve, on a nonbinding advisory basis, the compensation of our named executive officers as disclosed in this Proxy Statement, (b) approve, on a nonbinding advisory basis, the frequency of future say on pay advisory votes or (c) ratify the appointment of Ernst & Young LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2011 because approval of each of these proposals is based solely on the number of votes cast affirmatively or negatively.

Revocability of Proxies

A stockholder of record may revoke a proxy at any time before it is voted at the Annual Meeting by (a) delivering a proxy revocation or another duly executed proxy bearing a later date to the Secretary of our Company at 149 Commonwealth Drive, Menlo Park, California 94025 or (b) attending the Annual Meeting and voting in person. Attendance at the Annual Meeting will not revoke a proxy unless the stockholder actually votes in person at the meeting.

Solicitation of Proxies

The proxy card accompanying this Proxy Statement is solicited by the Board. We will pay all of the costs of soliciting proxies. In addition to solicitation by mail, our officers, directors and employees may solicit proxies personally, or by telephone, without receiving additional compensation. We, if requested, will pay brokers, banks and other fiduciaries that hold shares of common stock for beneficial owners for their reasonable out-of-pocket expenses of forwarding these materials to stockholders.

Householding of Proxy Materials

Householding is a procedure approved by the Securities and Exchange Commission, or the SEC, under which stockholders who have the same address and last name and do not participate in electronic delivery of proxy materials will receive only one copy of our Proxy Statement from a company, single bank, broker or other intermediary, unless one or more of these stockholders notifies us, the bank, broker or other intermediary that they wish to continue to receive individual copies. At the present time, we do not "household" for any of our stockholders of record. However, as explained below, your bank, broker or other intermediary may be householding your account if you hold your shares in street name.

If you hold shares in street name, your bank, broker or other intermediary may be delivering only one copy of our Proxy Statement to multiple stockholders of the same household who share the same address, and may continue to do so, unless your bank, broker or other intermediary has received contrary instructions from one or more of the affected stockholders in the household. If you are such a beneficial holder, contact your bank, broker or other intermediary directly in order to receive a separate set of our proxy materials.

They each have demonstrated business acumen and an ability to exercise sound judgment, as well as a commitment of service to us and our Board. Our Board believes that the backgrounds and qualifications of the directors, considered as a group, provides a significant composite mix of experience, knowledge and abilities that allows the Board to fulfill its responsibilities.

DIRECTOR NOMINATION

The information below describes the criteria and process that the Nominating and Corporate Governance Committee uses to evaluate candidates to the Board.

Nominating and Corporate Governance Committee. Our Nominating and Corporate Governance Committee currently consists of Joseph C. Cook, Jr. (Chairman) and James N. Wilson. The Nominating and Corporate Governance Committee met once during 2010. The Nominating and Corporate Governance Committee is responsible for identifying individuals qualified to serve as members of the Board, recommending to the independent members of the Board nominees for election as our directors and providing oversight with respect to corporate governance and ethical conduct. The Board has determined that Mr. Cook is an “independent director” for NASDAQ purposes. Although Mr. Wilson is our employee and therefore not an “independent director” for NASDAQ purposes, our director nomination process meets applicable NASDAQ requirements because our director nominees are selected by the independent members of the Board. The Nominating and Corporate Governance Committee has a written charter, a copy of which is available on our website at www.corcept.com.

The information below describes the criteria and process that the Nominating and Corporate Governance Committee uses to evaluate candidates to the Board.

Board Membership Criteria. The Nominating and Corporate Governance Committee is responsible for assessing the appropriate balance of experience, skills and characteristics required of the Board. Nominees for director are selected on the basis of depth and breadth of experience, knowledge, integrity, ability to make independent analytical inquiries, understanding of our business environment, the willingness to devote adequate time to Board duties, the interplay of the candidate’s experience and skills with those of other Board members, and the extent to which the candidate would be a desirable addition to the Board and any Committees of the Board. Although there is no specific policy regarding diversity in identifying director nominees, both the Nominating and Corporate Governance Committee and the Board seek the talents and backgrounds that would be most helpful to us when selecting director nominees. In particular, the Nominating and Corporate Governance Committee, when recommending director candidates to the full Board for nomination, may consider whether a director candidate, if elected, assists in achieving a mix of Board members that represents a diversity of background and experience. In addition, the Nominating and Corporate Governance Committee seeks to ensure that at least a majority of the directors are independent under the rules of the NASDAQ Stock Market, that the Audit Committee and Compensation Committee are each composed entirely of independent directors, and that members of the Audit Committee possess such accounting and financial expertise as the NASDAQ Stock Market requires.

Stockholders Proposals for Nominees. The Nominating and Corporate Governance Committee will consider written proposals from stockholders for nominees for director. Any such nominations should be submitted to the Nominating and Corporate Governance Committee c/o the Secretary of our Company and should include (at a minimum) the following information: (a) all information relating to such nominee that is required to be disclosed pursuant to Regulation 14A under the Securities Exchange Act of 1934, as amended, or Exchange Act, including such person’s written consent to being named in the proxy statement as a nominee and to serving as a director if elected; (b) the name(s) and address(es) of the stockholder(s) making the nomination and the number of shares of our common stock which are owned beneficially and of record by such stockholder(s); and (c) appropriate biographical information and a statement as to the qualifications of the nominee, and should be submitted in the time frame described in our Amended and Restated Bylaws and under the caption, “Stockholder Proposals” below.

Process for Identifying and Evaluating Nominees. The Nominating and Corporate Governance Committee initiates the process for identifying and evaluating nominees to the Board by identifying a slate of candidates who meet the criteria for selection as nominees and have the specific qualities or skills being sought based on input from members of the Board, management and, if the Nominating and Corporate Governance Committee

[Table of Contents](#)

deems appropriate, a third-party search firm. In addition, we have agreed to take all necessary steps to have one designee of Longitude Venture Partners, L.P., one of our significant stockholders, nominated for election to our Board, subject to compliance with relevant NASDAQ Stock Market rules and regulations and approval of the nominee by the Nominating and Corporate Governance Committee. Candidates, including candidates proposed by Longitude Venture Partners, L.P., are evaluated by the Nominating and Corporate Governance Committee on the basis of the factors described above under “*Board Membership Criteria.*”

With respect to candidates for initial election to the Board, the Nominating and Corporate Governance Committee also reviews biographical information and qualifications and checks the candidates’ references. Qualified candidates are interviewed by at least one member of the Nominating and Corporate Governance Committee. Serious candidates meet, either in person or by telephone, with all members of the Nominating and Corporate Governance Committee and as many other members of the Board as practicable.

Using the input from interviews and other information obtained, the Nominating and Corporate Governance Committee evaluates which of the prospective candidates is qualified to serve as a director and whether the committee should recommend to the independent members of the Board that the Board nominate, or elect to fill a vacancy with, a prospective candidate. Candidates recommended by the Nominating and Corporate Governance Committee are presented to the independent members of the Board for selection as nominees to be presented for the approval of the stockholders or for election to fill a vacancy. The Nominating and Corporate Governance Committee expects that a similar process will be used to evaluate nominees recommended by stockholders.

Nominees to the Board of Directors for the Annual Meeting. The nominees for the Annual Meeting were recommended for selection by the Nominating and Corporate Governance Committee and were selected by the independent members of the Board.

BOARD MEETINGS AND COMMITTEES

The Board met eight times during 2010. In addition to the Nominating and Corporate Governance Committee, which is described above, the Board has standing Audit and Compensation Committees. The Audit Committee met five times and the Compensation Committee met twice. The Nominating and Corporate Governance Committee met once during 2010. Each member of the Board attended 75% or more of the total number of Board meetings and meetings of Board committees on which such Board member served.

We have a policy of encouraging all directors to attend the annual stockholder meetings. Two of our directors attended the 2010 annual stockholder meeting.

Audit Committee. The Audit Committee currently consists of Joseph L. Turner (Chairman), Patrick G. Enright and David L. Mahoney. The Board has determined that all members of the Audit Committee are independent directors under the rules of the NASDAQ Stock Market and each of them is able to read and understand fundamental financial statements. In addition, the Board has determined that each member of the Audit Committee also satisfies the independence requirements of Rule 10A-3(b)(1) of the Exchange Act. The Board has determined that Mr. Enright is independent even though he falls outside the “safe harbor” definition set forth in Rule 10A-3(e)(1)(ii) under the Exchange Act because Longitude Venture Partners, LP and its affiliates own in excess of 10% of our common stock. Among other things, the Board considered Mr. Enright’s history of service and the percentage of common stock held by others, and it determined that he is not an “affiliated person” of our company who would be ineligible to serve on the Audit Committee. The Board has determined that each of Messrs. Turner, Mahoney and Enright qualifies as an “Audit Committee financial expert” as defined by Item 407(d)(5) of Regulation S-K of the Securities Act and the Exchange Act. The purpose of the Audit Committee is to oversee the accounting and financial reporting processes and financial statements audits. The responsibilities of the Audit Committee include appointing and providing for the compensation of the independent registered public accounting firm to conduct the annual audit of our accounts, reviewing the scope

[Table of Contents](#)

and results of the independent audits, reviewing and evaluating internal accounting policies, and approving all professional services to be provided to us by our independent registered public accounting firm. The Audit Committee has a written charter, a copy of which is available on our website at www.corcept.com.

Compensation Committee. The Compensation Committee currently consists of G. Leonard Baker, Jr. (Chairman), Joseph C. Cook, Jr., James A. Harper and David L. Mahoney. The Board has determined that all members of the Compensation Committee are independent directors under the rules of the NASDAQ Stock Market. The Compensation Committee administers our benefit plans, reviews and administers all compensation arrangements for executive officers, and establishes and reviews general policies relating to the compensation and benefits of our officers and employees. The Compensation Committee has a written charter, a copy of which is available on our website at www.corcept.com. Pursuant to the Compensation Committee's charter, the Compensation Committee may delegate its authority and responsibilities as it deems proper to members of the Compensation Committee or to a subcommittee.

BOARD LEADERSHIP STRUCTURE AND ROLE IN RISK OVERSIGHT

Board Leadership Structure. In accordance with our Amended and Restated Bylaws, our Board appoints our officers, including our Chief Executive Officer. Our Board does not have a policy on whether the role of the Chairman of the Board and Chief Executive Officer should be separate and, if it is to be separate, whether the Chairman of the Board should be selected from the non-employee directors or be an employee and if it is to be combined, whether a lead independent director should be selected. However, our Board is committed to corporate governance practices and values independent board oversight as an essential component of strong corporate performance. For example, six of our eight current directors qualify as independent according to the rules and regulations of NASDAQ. In March 2011, our Board undertook a review of the independence of each director and considered whether any director has a material relationship with us that could compromise his ability to exercise independent judgment in carrying out his responsibilities. As a result of this review, our Board determined that the following current directors are "independent" under current NASDAQ rules:

G. Leonard Baker, Jr.
Joseph C. Cook, Jr.
Patrick G. Enright
James A. Harper
David L. Mahoney
Joseph L. Turner

Currently, we separate the roles of Chief Executive Officer and Chairman of the Board in recognition of the differences between the two roles. The Chief Executive Officer is responsible for setting the strategic direction for our company and the day-to-day leadership and performance of our company, while the Chairman of the Board provides guidance to the Chief Executive Officer and management and sets the agenda for board meetings and presides over meetings of the full Board. Dr. Belanoff, our Chief Executive Officer, is an employee of our company and is therefore not "independent" under the rules of NASDAQ Stock Market. Mr. Wilson, our Chairman of the Board, is an employee of our company and is therefore not "independent" under the rules of NASDAQ Stock Market. Our Board believes that the current board leadership structure is appropriate for our company and our stockholders at this time.

Risk Oversight. The Board oversees our company's risk exposures and risk management of various parts of the business, including appropriate guidelines and policies to minimize business risks and major financial risks and the steps management has undertaken to control them. In its risk oversight role, the Board reviews our strategic plan at least annually, which includes an assessment of potential risks facing us. While the Board has the ultimate oversight responsibility for the risk management process, various committees of the Board also have responsibility for risk management. Our Audit Committee is responsible for overseeing management of our risks

relating to accounting matters, financial reporting and SEC compliance. Our Compensation Committee is responsible for overseeing the management of risks relating to our company's executive compensation plans and arrangements. In addition, in setting compensation, the Compensation Committee strives to create incentives that do not encourage risk-taking behavior that is inconsistent with our company's business strategy. Our Nominating and Corporate Governance Committee is responsible for overseeing management of our risks associated with the independence of our Board and potential conflicts of interest. Each committee regularly reports to the full board of directors.

COMMUNICATIONS WITH DIRECTORS

Stockholders or other interested parties may communicate with any director or committee of our Board by writing to them c/o Secretary, Corcept Therapeutics Incorporated, 149 Commonwealth Drive, Menlo Park, California 94025. Comments or questions regarding our accounting, internal controls or auditing matters will be referred to members of the Audit Committee. Comments or questions regarding the nomination of directors and other corporate governance matters will be referred to members of the Nominating and Corporate Governance Committee.

CODE OF ETHICS

We have adopted a code of ethics that applies to all of our officers and employees, including our principal executive officer and our principal financial officer, a copy of which is available on our website at www.corcept.com. We will also deliver a copy of our code of ethics to any stockholder, without charge, upon written request to Corcept Therapeutics Incorporated, 149 Commonwealth Drive, Menlo Park, California 94025, Attention: Secretary, or upon oral request by calling (650) 327-3270.

Through April 10, 2011, Dr. Roe had repaid \$170,263 of the principal of the loan plus accrued interest, leaving a remaining principal balance of \$16,987 plus accrued interest in the amount of \$58 for a total combined balance of \$17,045.

Subsequently, as additional executive officers have joined our company (Caroline M. The agreements provide that, if employment is terminated without cause or for good reason regardless of whether it is in connection with a change in control, the executive will be eligible for 12 months of his or her then current base salary and continued health insurance coverage for this same period. In addition, the agreements provide for the full vesting of all outstanding equity awards in the event the executive's employment is terminated without cause or for good reason within 18 months following a change in control.

During 2008, we also entered into an Amended and Restated Severance and Change in Control Agreement with James N. Wilson, Chairman of our Board. Such agreements require us, among other things, to indemnify its officers and directors, other than for liabilities arising from willful misconduct of a culpable nature, and to advance their expenses incurred as a result of any proceedings against them as to which they could be indemnified.

See "Director Compensation" for a discussion of our director compensation policy.

SECTION 16(A) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Under Section 16(a) of the Exchange Act and SEC rules, our directors, executive officers and beneficial owners of more than 10% of any class of equity security are required to file periodic reports of their ownership, and changes in that ownership, with the SEC. Based solely on our review of copies of these reports and representations of such reporting persons, we believe that during 2010, such SEC filing requirements were satisfied, with the exception of one Form 4 for each of Joseph C. Cook, Jr., James Harper and David Mahoney disclosing one transaction each that were inadvertently filed late.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

The Compensation Committee of our Board is delegated the primary responsibility for our executive compensation program, which is intended to provide compensation packages for our named executive officers that are appropriately competitive within our industry, provide rewards for significant corporate performance and are appropriate for our stage of development. Compensation packages are designed to encourage a balanced focus on both short- and long-term goals. Direct compensation consists of a base salary, periodic cash bonuses for the achievement of significant corporate milestones and long-term equity incentive awards.

Executive Summary

During 2010, we had significant development, operational and financing accomplishments. Following is a summary of our principal activities and accomplishments over the course of the year.

- We announced in December 2010 and January 2011, respectively, that our Phase 3 study of CORLUX for the treatment of Cushing's Syndrome had met both of its primary endpoints and its key secondary endpoints with statistical significance.
- We enrolled 88% of the patients who completed the six-month Phase 3 study of CORLUX for Cushing's Syndrome in the long-term extension study of the treatment. We now have patients treated with CORLUX through our Phase 3 and extension studies for over two years.
- We initiated a Phase 1b/2a multi-dose safety and proof of concept study in December 2010 with CORT 108297, the lead product candidate from our research efforts focusing on the identification and development of new, proprietary, selective glucocorticoid receptor II (GR-II) antagonists. The study is evaluating the compound in models of antipsychotic induced weight gain and changes in biomarkers induced by prednisone, a steroid.
- We raised approximately \$24.3 million in gross proceeds in a combination of public and private financing transactions.

Further, we continued to make progress on:

- preparing for the submission to the U.S. Food and Drug Administration, or FDA, of our New Drug Application, or NDA, for CORLUX in Cushing's Syndrome, which submission occurred on April 15, 2011;
- planning for the potential commercialization of CORLUX in the United States;
- enrolling patients in our double-blind placebo controlled Phase 3 trial of CORLUX in patients with psychotic depression;
- advancing our second selective GR-II antagonist, CORT 113083, towards the submission to the FDA of an Investigational New Drug, or IND, application in 2011, and
- identifying additional compounds from among our three proprietary series of selective GR-II antagonists to advance toward an IND submission.

Executive Compensation 2010 Program Overview

Based on our compensation philosophy, pay program structure and company and individual performance, our Compensation Committee took the following actions with respect to the compensation for our named executive officers for 2010:

Base Salary. For our named executive officers who were employed for the entire year (Dr. Belanoff, our Chief Executive Officer, Dr. Roe, our President, Caroline M. Loewy, our Chief Financial Officer, and Anne LeDoux, our Vice President and Controller (Chief Accounting Officer), base salary for 2010 reflected an increase of 3%, as compared to the base salary of 2009, consistent with the increase provided to all company employees. The initial base salary (and option grant award) for Steven Lo, our Vice President of Commercial Operations, who joined the company in September 2010, was based on internal and external comparisons, the depth of his prior experience in commercializing new products at former companies and the level of cash and equity compensation that the Chief Executive Officer and members of our Compensation Committee and Board believed was appropriate for this position.

Bonus for 2010 Performance. In view of the strong development and corporate performance accomplished by our company during 2010, our Compensation Committee and Board decided to award discretionary bonuses

[Table of Contents](#)

to our named executive officers and other employees. Bonuses awarded to our named executive officers for 2010 performance ranged from approximately 30% to 100% of base pay received during that year. These awards reflect our achievement of significant corporate milestones for 2010, as well as the individual contribution to this performance by each named executive officer. The magnitude of the bonus awards for 2010 were based on 1) the significance of our development, operational and financing accomplishments during the year as discussed above, 2) the fact that accomplishments related to clinical trials and research activities often require more than a one year time span to complete and 3) the fact that we did not award bonuses to our named executive officers in 2009.

Equity Awards. The Compensation Committee and Board chose not to award any new option grants during 2010 to our named executive officers, other than the award to Steven Lo upon his joining our company in September 2010. As discussed above, the size of the initial stock award for Steven Lo was based on the level of compensation that the Chief Executive Officer and members of our Compensation Committee and Board believed was appropriate for this position and the depth of Mr. Lo's prior experience.

Compensation Principles and Objectives

For Joseph K. Belanoff, M.D., our Chief Executive Officer, Robert L. Roe, M.D., our President, Caroline M. Loewy, our Chief Financial Officer, Steven Lo, our Vice President of Commercial Operations, and Anne LeDoux, our Vice President and Controller (Chief Accounting Officer), our named executive officers, compensation is intended to be performance-based, with the exception of such named executive officer's base salary. The Compensation Committee believes that compensation paid to our named executive officers should be closely aligned with our performance on both a short-term and long-term basis, linked to specific, measurable results intended to create value for stockholders, and that such compensation should assist us in attracting and retaining key executives critical to our long-term success.

In establishing compensation for executive officers, the following are the Compensation Committee's objectives:

- align officer and stockholder interests by providing a portion of total compensation opportunities for senior management in the form of equity awards and bonuses tied to company and individual performance.
- ensure executive officer compensation is competitive within the marketplace in which we compete for executive talent by relying on the Compensation Committee's judgment, expertise and personal experience with other similar companies, recognizing that because of the company's business model and stage of development, there may be few directly comparable companies; and
- recognize that best compensation practices for a young company with relatively few employees may be substantially different than for a larger, more mature company and that we should make full use of our greater latitude and breadth of compensation opportunities.

Our overall compensation program is structured to attract, motivate and retain highly qualified executive officers by paying them competitively, consistent with our success and their contribution to that success. Given the long product development cycles in our business, we believe compensation should be structured to ensure that a portion of compensation opportunity will be related to factors that directly and indirectly influence long-term stockholder value. Accordingly, we set goals designed to link each named executive officer's compensation to our corporate performance, such as the attainment of development and operational goals and meeting agreed upon financial targets.

We provide a base salary to our executive officers. Additionally, consistent with our performance-based philosophy, we reserve the largest potential compensation awards for performance- and incentive-based programs for our senior executive management team, comprised of the Chief Executive Officer, President, Chief Financial Officer, Vice President of Commercial Operations and Chief Accounting Officer. Such programs

[Table of Contents](#)

include stock options grants, designed to provide compensation opportunities if milestones are attained that increase our value, such as positive results in clinical trials. Incentive-based programs provide compensation in the form of both cash and equity, to reward for both short-term and long-term performance. The Compensation Committee allocates total compensation between cash and equity compensation based on the Compensation Committee members' knowledge of compensation practices in the biotechnology and specialty pharmaceutical industries. The balance between equity and cash compensation among members of the senior executive management team, all five of whom are named executive officers, is evaluated annually to align the interests of management with stockholders through both short and long term incentives.

The Chairman of the Board and the members of the Compensation Committee are seasoned executives of, consultants to or venture capitalists with investments in the biotechnology and specialty pharmaceutical industry. Collectively they have served as board and compensation committee members of many public and privately held companies including Amylin Pharmaceuticals, Inc., Ironwood Pharmaceuticals, Inc., NuGen Technologies, Inc., Neurex Corporation, Praecis Pharmaceuticals, Inc., Syntex Corporation, Tercica, Inc. and Zymogenetics Inc. As a result of this extensive involvement in the compensation of executives in these and other companies, the Chairman of the Board and the members of the Compensation Committee collectively have developed a clear understanding and knowledge of the compensation structures that are necessary to attract, motivate and retain management talent.

Determination of Compensation

The Compensation Committee is charged with the primary authority to determine and recommend the compensation awards available to our executive officers for approval by the Board. Based on the Compensation Committee members' collective understanding of compensation practices in similar companies in the biotechnology and specialty pharmaceutical industry, our executive compensation package consists of the following elements, in addition to the employee benefit plans in which all employees may participate:

- Base salary: compensation for ongoing performance throughout the year.
- Periodic performance-based cash compensation: awards to recognize and reward achievement of performance goals.
- Long-term performance-based equity incentive program: equity compensation to provide an incentive to our named executive officers to manage us from the perspective of an owner with an equity stake in the business.
- Severance and change in control benefits: remuneration paid to executives in the event of a change in control or involuntary employment termination.

To aid the Compensation Committee in making its determination, our Chief Executive Officer provides recommendations annually to the Compensation Committee regarding the compensation of all other executive officers based on the overall corporate achievements during the period being assessed and his knowledge of the individual contributions to our success by each of the named executive officers. The overall performance of our senior executive management team is reviewed annually by the Compensation Committee.

We set base salary structures and any grants of stock options based on the Compensation Committee members' collective understanding of compensation practices in the biotechnology and specialty pharmaceutical industry and such members' experiences as seasoned executives, consultants, board and compensation committee members, or investors in similar biotechnology and specialty pharmaceutical industry companies.

Tax Considerations

A goal of the Compensation Committee is to comply with the requirements of Internal Revenue Code Section 162(m) of the Internal Revenue Code of 1986, as amended, which limits the tax deductibility by us of

[Table of Contents](#)

annual compensation in excess of \$1,000,000 paid to our Chief Executive Officer and any of our three other most highly compensated executive officers, other than our Chief Financial Officer. However, performance-based compensation that has been approved by our stockholders is excluded from the \$1,000,000 limit if, among other requirements, the compensation is payable only upon the attainment of pre-established, objective performance goals and the committee of our Board that establishes such goals consist only of non-employee directors.

While the tax impact of any compensation arrangement is one factor to be considered, such impact is evaluated in light of the Compensation Committee's overall compensation philosophy and objectives. The Compensation Committee will consider ways to maximize the deductibility of executive compensation, while retaining the discretion it deems necessary to compensate officers in a manner commensurate with performance and the competitive environment for executive talent. From time to time, the Compensation Committee may award compensation to our executive officers that may not be fully deductible if it determines that such award is consistent with its philosophy and is in our and our stockholders' best interests.

Certain option grants made under our equity plans are intended to be structured so that any compensation deemed paid upon the exercise of those options is intended to qualify as performance-based compensation that is not subject to the \$1,000,000 limitation.

Elements of Executive Compensation

Base Compensation

We pay base salaries to provide fixed compensation based on the Compensation Committee's assessment of competitive market practices. Due to the Compensation Committee's collective experience with similar companies in the biotechnology and specialty pharmaceutical industry, the Compensation Committee has intimate knowledge and understanding of what the industry demands in order to motivate and retain our executive officers. We provide each named executive officer with a base salary that was established by negotiations with each named executive officer when such individual first joined us as an employee or was promoted to the position of executive officer. Base salaries have not changed in 2010 as compared to 2009 other than for annual merit adjustments of 3% per year that were approved by the Compensation Committee and applied equally to all employees. While base salaries are not considered by the Internal Revenue Service to constitute performance-based compensation, each year the Compensation Committee reviews the CEO's base salary to determine if a change is appropriate based on Company performance, such as our progress on research and development programs. Similarly, the CEO reviews the base salary of the other named executive officers and has the ability to propose a change in base salary based on performance to the Compensation Committee. Other than the annual merit increases that the Compensation Committee has approved, no formulaic base salary increases are provided to the named executive officers.

Performance-Based Compensation

Performance Goals and Periodic Performance-Based Cash Compensation. We structure our compensation programs to reward executive officers based on our performance. This allows executive officers to receive bonus compensation in the event certain specified corporate performance measures are achieved. To date, we have not instituted an annual performance-based cash compensation or annual performance-based equity compensation program because the Compensation Committee believes that the compensation objective to ensure that executive officers' compensation is aligned with our corporate strategies, business objectives and the long-term interests of our stockholders is achieved when milestone successes are met, such as meeting the predetermined endpoints in our clinical trials. The achievement of these milestones does not necessarily correspond with annual performance periods.

[Table of Contents](#)

Performance-based cash compensation has been awarded in some past years primarily to recognize the accomplishment of certain value enhancing milestones such as successful financing transactions, initiation of clinical trials and positive results in clinical trials. The Compensation Committee believes that performance-based compensation should be based on achievement of these types of milestone successes.

On December 21, 2010, our Board approved cash bonus payments for the 2010 fiscal year to our named executive officers and all other employees. These bonus awards were made in connection with important achievements during 2010, including the completion of financing transactions for aggregate gross proceeds of approximately \$24.3 million, the reporting of positive results from our Phase 3 study of CORLUX for the treatment of Cushing's Syndrome, the commencement of commercialization planning activities for that program, and progress in the development of new chemical entities, including clinical development of CORT 108297 and the initiation of preliminary activities toward filing an IND for CORT 113083. For a more comprehensive discussion of our corporate accomplishments during 2010, see the section captioned "Executive Summary" under this Compensation Discussion and Analysis that appears on page 15.

The bonus amounts paid to our named executive officers for 2010 performance were as follows:

Name	Title	Bonus Amount	Percentage of 2010 Base Pay
Joseph K. Belanoff, M.D.	Chief Executive Officer	\$454,000	100%
Robert L. Roe, M.D.	President and Secretary	315,000	75%
Caroline M. Loewy	Chief Financial Officer	93,000	30%
Steven Lo ⁽¹⁾	Vice President of Commercial Operations	25,000	30%
Anne M. LeDoux	Vice President, Controller and Chief Accounting Officer	66,000	30%

⁽¹⁾ Steven Lo received a prorata bonus reflecting the fact that he was only with us for part of the year.

For each named executive officer, the bonus amount was based on his or her relative individual contribution to our success and the breadth of his or her sphere of responsibility, which are enumerated below.

Name	Title	Individual Contribution
Joseph K. Belanoff, M.D.	Chief Executive Officer	Overall leadership and direction of the company's activities in a productive and successful year, including leading financings and directing research programs for selective GR-II antagonists
Robert L. Roe, M.D.	President and Secretary	Leadership of all drug evaluation and development activities relating to the successful clinical trial for CORLUX for Cushing's Syndrome and the preparations for its NDA submission; the initiation of clinical development of CORT 108297 and of pre-clinical work on CORT 113083
Caroline M. Loewy	Chief Financial Officer	Organization of financing activities resulting in \$24.3 million in gross proceeds and direction of investor and public relations
Steven Lo	Vice President of Commercial Operations	Organization and leadership of our commercialization activities, including the development of our Risk Evaluation and Mitigation Strategy
Anne M. LeDoux	Vice President, Controller and Chief Accounting Officer	Management of financial operations, SEC regulatory filings for financing and periodic reporting, resulting in successful initial year of auditor attestation under Sarbanes-Oxley Section 404.

Long-Term Performance-Based Equity Incentive Program. Our executive officers, along with all of our employees, are eligible to participate in our awarding of stock options under our 2004 Equity Incentive Plan. As discussed above, we believe, with our performance-based approach to compensation, that equity ownership in our company is important to tie the ultimate level of an executive officer's compensation to the performance of our stock and stockholder gains while creating an incentive for sustained growth. We have, thus far, only used stock options as the long-term performance-based equity incentive vehicle because the Compensation Committee believes that stock options maximize executive officers' incentive to increase our stock price and maximize stockholder value (i.e. there is no financial gain to an executive officer unless our stock price appreciates).

Equity compensation in the form of incentive or non-qualified stock options is awarded by the Compensation Committee from time to time. The size and the timing of each grant is based on a number of factors, including the executive officer's salary, such executive officer's contributions to the achievement of our financial and strategic objectives, the value of the stock option at the time of grant, the possible value of the option if we achieve our objectives and industry practices and norms from the collective knowledge of the Compensation Committee as seasoned executives of, consultants to, board and compensation members of, and venture capitalists with investments in similar companies in the industry. The relative weight given to each of these factors varies among individuals at the Compensation Committee's discretion. There is no set formula for the granting of stock options to individual executives and employees. Grants also may be made following a significant change in job responsibility or in recognition of a significant achievement.

Stock options granted to our named executive officers under the various equity incentive plans generally have a multi-year vesting schedule in order to provide an incentive for continued employment. These vesting schedules are generally either four or five years depending on the date of the initial option grant. In addition, a portion of the stock option awards granted to Dr. Belanoff and Dr. Roe in 2009 are performance-based grants that vest, in their entirety upon the approval of the NDA for the Company's first product by the FDA (see footnote 2 to the Summary Compensation table presented below). Stock option awards generally expire ten years from the date of the grant. This provides a reasonable time frame in which to provide the executive officer with the possibility of price appreciation of our shares. The exercise price of options granted under the stock plans is 100% of the fair market value of the underlying stock on the date of grant.

During 2010, the Board approved the award of a stock option grant of 400,000 shares to Steven Lo, upon his joining the company as our Vice President of Commercial Operations. This option award vests over a four year period, with 25% vesting on the first annual anniversary of Mr. Lo's date of employment and the remainder vesting at the rate of 2.0834% on each monthly anniversary thereafter until fully vested.

Severance and Change in Control Arrangements

We entered into Severance and Change in Control Agreements with each of our named executive officers to encourage continued attention and dedication to duties without distraction arising from the possibility of a change in control of our company and provide the business with a smooth transition in the event of a change in control. The terms of the agreements are identical. For a detailed description of the Severance and Change in Control Agreements, see "*Potential Payments Upon Termination or Change in Control – Severance and Change in Control Agreements*" below.

These severance and change in control arrangements are designed to retain these executives in these key positions as we compete for talented executives in the marketplace where such protections are commonly offered. These arrangements provide benefits to encourage the executives to continue to provide necessary or desirable service to us during a change in control and to ease the transition of the executives due to an unexpected employment termination by us due to changes in our employment needs.

Other Elements of Compensation and Perquisites

401(k) Plan. We have a Section 401(k) Savings/Retirement Plan, or 401(k) Plan, to cover our eligible employees and any designated affiliate. The 401(k) Plan permits our eligible employees to defer up to 100% of their annual compensation, subject to certain limitations imposed by the Internal Revenue Code. The employees' elective deferrals are immediately vested and non-forfeitable upon contribution to the 401(k) Plan. We currently make no matching contributions to the 401(k) Plan. Our employees are eligible to participate in the 401(k) Plan, as well as the insurance programs discussed below, on the first day of the month coinciding with or immediately following the first day of employment.

Medical Insurance. We, at our sole cost, provide to each eligible employee (including each named executive officer), and his or her spouse and children such health, dental and optical insurance as we, in our sole discretion, may from time to time make available to our employees. Such insurance programs are part of an overall broad-based total compensation program designed to facilitate our ability to attract and retain employees as we compete for talented individuals in the marketplace where such benefits are commonly offered.

Life and Disability Insurance. We, at our sole cost, provide each eligible employee (including each named executive officer) such disability and/or life insurance as we, in our sole discretion, may from time to time make available to our employees. Such insurance programs are part of an overall broad-based total compensation program designed to facilitate our ability to attract and retain employees as we compete for talented individuals in the marketplace where such benefits are commonly offered.

Policies with Respect to Equity Compensation Awards

We grant all stock option awards based on the fair market value as of the date of grant. We do not have a policy of granting stock option awards at other than the fair market value. The exercise price for each stock option grants is based on the last quoted price per share on the NASDAQ Capital Market on the date of grant. We do not have a policy and do not intend to have a policy or practice to select option grant dates for executive officers in coordination with the release of material non-public information.

We also have an insider trading policy that prohibits our named executive officers and Board members from engaging in short-term or speculative transactions in our stock, including short sales.

Instead, the amounts shown represent the grant date fair value of the awards as of the date of grant. The relevant assumptions used to calculate the value of the option awards are set forth in Part IV – Item 15(1) – Financial Statements, Notes to Financial Statements, Note 9 – “Preferred Stock and Stockholders’ Equity – Stock-Based Compensation Related to Employees and Director Options” in our Annual Report on Form 10-K for the year ended December 31, 2010.
- (2) The stock option grants awarded in 2009 to Joseph K. Belanoff, M.D. and Robert L. Roe, M.D., are each comprised of two parts. One-half of the shares of each award (500,000 shares for Dr. Belanoff and 200,000 shares for Dr. Roe) is a service-based award that vests pro rata over a four-year period at the rate of 2.0834% on the monthly anniversary of the date of grant, until fully vested. The remaining one-half of each award (500,000 shares for Dr. Belanoff and 200,000 shares for Dr. Roe) will vest in its entirety upon the occurrence of the approval of the NDA for the Company's first product by the FDA.

To date, no stock awards have been granted to any of our named executive officers.

(1) Assumes that the stock options were not assumed or substituted by the successor entity to our company or a parent or subsidiary of the successor entity.

(2) For unvested options held by named executive officers as of December 31, 2010, the value ascribed to the change in control acceleration features under the Severance and Change in Control Agreements is calculated as follows:

- a. For option grants to these individuals where the closing stock price for our company's common stock on the NASDAQ Capital Market as of December 31, 2010 exceeded the exercise price of the option grant, the value of the acceleration benefit on change in control has been calculated as the difference between these factors multiplied by the number of unvested shares in each of these option awards as of that date.
- b. There is no value ascribed to any unvested shares for any option grants to these individuals where the exercise price of the option grant equaled or exceeded the closing stock price for our company's common stock on the NASDAQ Capital Market as of December 31, 2010.

Risk Assessment of Compensation Programs

Our Compensation Committee and Board have determined that our compensation policies, plans and practices are appropriately balanced and do not create risks that are reasonably likely to have a material adverse effect on the Company. To make this determination, they reviewed the compensation policies, plans and practices for our executive officers and employees assessing such features as design, payment methodology, relationship to the Company's performance and length of performance period, and oversight and controls as compared to the compensation practices that they have seen in similar companies in our stage of development. During the review several risk mitigating factors inherent in the Company's compensation practices were noted, including the Compensation Committee's and management's discretion in approving executive and employee compensation and establishing performance goals for short term and long term compensation plans, the balance between fixed and variable pay and the mix of short- and long-term incentives that encourage consistent performance over a sustained period, thus aligning the interests of our executive officers and employees with that of our stockholders.

EQUITY COMPENSATION PLAN INFORMATION

The following table provides information as of December 31, 2010 with respect to the shares of our common stock that may be issued under all of our existing equity compensation plans, including the 2004 Equity Incentive Plan and the 2000 Stock Option Plan.

None of our other plans has an "evergreen" provision. On November 19, 2010, the Board authorized an "evergreen" increase in the shares available for grant under the 2004 Plan to be equivalent to 4% of the shares of our common stock outstanding on December 31, 2010, which represented an increase of 2,896,155 shares to the plan on January 1, 2011.

REPORT OF THE AUDIT COMMITTEE*

Under the guidance of a written charter adopted by the Board, the purpose of the Audit Committee is to oversee the accounting and financial reporting processes of the Company and audits of its financial statements. The responsibilities of the Audit Committee include appointing and providing for the compensation of the Company's independent registered public accounting firm. Each of the members of the Audit Committee meets the independence requirements of NASDAQ.

Management has primary responsibility for the system of internal controls and the financial reporting process. The independent registered public accounting firm has the responsibility to express an opinion on the financial statements and internal control over financial reporting based on an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (PCAOB).

In this context and in connection with the audited financial statements contained in the Company's Annual Report on Form 10-K, the Audit Committee:

- reviewed and discussed the audited financial statements as of and for the fiscal year ended December 31, 2010 with the Company's management and Ernst & Young LLP, the Company's independent registered public accounting firm;
- discussed with Ernst & Young LLP the matters required to be discussed by the Statement on Auditing Standards No. 61, as amended (Codification of Statements on Auditing Standards, AU 380) as adopted by the PCAOB in Rule 3200T;
- received the written disclosures and the letter from Ernst & Young LLP required by applicable requirements of the PCAOB regarding Ernst and Young LLP's communications with the Audit Committee concerning independence and discussed with Ernst & Young LLP their independence;
- considered and discussed whether the non-audit services, if any, performed by Ernst & Young LLP are compatible with maintaining their independence;
- reviewed and discussed the reports of management and Ernst & Young LLP on their assessments of the effectiveness of the Company's internal control over financial reporting as of the end of the most recent fiscal year;
- reviewed the disclosures regarding the Company's system of internal controls required to be contained in the Company's Form 10-K;
- based on the foregoing reviews and discussions, recommended to the Board that the audited financial statements and management's report on the effectiveness of the Company's internal control over financial reporting as of December 31, 2010 be included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2010 filed with the Securities and Exchange Commission; and
- instructed Ernst & Young LLP that the Audit Committee expects to be advised if there are any subjects that require special attention.

The Audit Committee has also recommended, subject to stockholder ratification in Proposal 4 in this Proxy Statement, the appointment of Ernst & Young LLP as the Company's independent registered public accounting firm for the fiscal year ending December 31, 2011.

FEES OF THE INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Audit Fees

Fees for audit services totaled approximately \$642,000 in 2010 and \$417,000 in 2009, including fees for professional services provided by Ernst & Young LLP, our independent registered public accounting firm, in connection with the integrated annual audit of the our financial statements and internal control over financial reporting in 2010 and the annual audit of our financial statements in 2009, review of our quarterly financial statements included in Quarterly Reports on Forms 10-Q, comfort letters to underwriters in connection with public financing transactions, consultations on matters addressed during the audit, quarterly reviews, or reviews of financing transactions under consideration and services provided in connection with other statutory or regulatory filings, including consents.

Audit-Related Fees, Tax Fees, and All Other Fees

During 2010, we incurred fees for tax advisory services from our independent registered public accounting firm in the amount of approximately \$19,000, in connection with our applications for grants under the United States Treasury's Therapeutic Discovery Project Grant program. There were no fees paid to our independent registered public accounting firm during 2009 for any services in this category.

Pre-approval of audit-related and non-audit services

Our Audit Committee has adopted a policy and procedures for the pre-approval of audit and permissible non-audit services rendered by our independent registered public accounting firm, Ernst & Young LLP. Under this policy, our Audit Committee must pre-approve all audit and non-audit services performed by the Company's independent auditor in order to ensure that the provision of such services does not impair the auditor's independence. The policy permits the engagement of the independent registered public accounting firm for services that are approved by our Audit Committee in defined categories such as audit services, audit-related services and tax services. Pre-approval may be given as part of our Audit Committee's annual review and approval of the scope and estimated cost of non-audit services that may be provided by the independent registered public accounting firm or on an individual explicit case-by-case basis before the independent registered public accounting firm is engaged to provide each service. The Audit Committee has also delegated to the Chair of the Audit Committee the authority to pre-approve audit and non-audit services not prohibited by law to be performed by our independent registered public accounting firm and associated fees, provided that the Chair shall report any decision to pre-approve such audit or non-audit services and fees to the full Audit Committee at its next regular meeting. Our Audit Committee receives periodic reports on the scope of services provided and expected to be provided by the independent registered public accounting firm in the future.

Consistent with this policy, in 2010 and 2009 all audit and non-audit services (including audit-related fees, tax fees and all other fees) performed by our independent registered public accounting firm, Ernst & Young LLP, were pre-approved by the Audit Committee.

PROPOSALS TO BE ACTED UPON AT THE ANNUAL MEETING

PROPOSAL 1 ELECTION OF DIRECTORS

At the Annual Meeting, the stockholders will vote on the election of seven directors, each to serve for a one-year term until the annual meeting of stockholders in 2012 and until their successors are qualified and elected. The independent members of the Board have selected, and the Board has unanimously nominated, G. Leonard Baker, Jr., Joseph K. Belanoff, M.D., Joseph C. Cook, Jr., Patrick G. Enright, David L. Mahoney, Joseph L. Turner and James N. Wilson for election to the Board. The nominees have indicated that they are

[Table of Contents](#)

willing and able to serve as directors. If any of the nominees becomes unable or unwilling to serve, the accompanying proxy may be voted for the election of such other person as shall be designated by the Board. The proxies being solicited will be voted for the nominees at the Annual Meeting. Directors will be elected by a plurality of the votes cast, in person or by proxy, at the Annual Meeting, assuming a quorum is present. Stockholders do not have cumulative voting rights in the election of directors.

The Board of Directors unanimously recommends a vote “for” the election of the nominees as listed above.

Unless otherwise instructed, it is the intention of the persons named in the accompanying proxy card to vote shares represented by properly executed proxy cards for the election of the nominees as listed above.

PROPOSAL 2 ADVISORY VOTE ON COMPENSATION OF NAMED EXECUTIVE OFFICERS

The Company’s goal for its executive compensation program is to attract and retain a talented, entrepreneurial and creative team of executives who will provide leadership for the Company’s success in managing the marketing approval by the U.S Food and Drug Administration and commercialization of CORLUX, our lead product candidate, and organizing and implementing the strategy for development of our second generation proprietary, selective GR-II compounds. The Company accomplishes this goal in a manner consistent with its strategy, competitive practice, sound corporate governance principles, and stockholder interests and concerns. The Company believes the compensation program for the named executive officers is strongly aligned with the long-term interests of its stockholders and was instrumental in helping the Company achieve strong financial performance in 2010.

Stockholders are urged to read the Executive Compensation section of this Proxy Statement, including the Compensation Discussion and Analysis, or CD&A, section which discusses the Company’s compensation policies and procedures, and the 2010 compensation for the Company’s named executive officers. The Compensation Committee and the Board believe that the Company’s compensation policies and procedures are effective in achieving the Company’s goals and are consistent with stockholder interests.

In accordance with Section 14A of the Securities Exchange Act, we are including in this Proxy Statement a separate stockholder vote on executive compensation, which vote is non-binding. Accordingly, we are asking you to approve, on an advisory basis, the compensation of the Company’s named executive officers listed in the 2010 Summary Compensation Table included in this Proxy Statement, as described in the Executive Compensation section of this Proxy Statement, including the CD&A and the related compensation tables and other narrative executive compensation disclosure contained therein.

Stockholders have the opportunity to vote “for” or “against” or to “abstain” from voting on the following non-binding resolution relating to executive compensation:

“RESOLVED, that the stockholders of the Company approve, on an advisory basis, the compensation of the Company’s named executive officers, as disclosed in the Compensation Discussion and Analysis, compensation tables and narrative discussion of this Proxy Statement.”

Although the advisory vote is non-binding, the Compensation Committee and the Board will review the results of the vote. The Compensation Committee will consider our stockholders’ concerns to the extent there is any significant vote against the named executive officer compensation as disclosed in this Proxy Statement and take them into account in future determinations concerning our executive compensation program. The Board therefore recommends that you indicate your support for the Company’s compensation policies and procedures for its named executive officers, as outlined above.

Recommendation of the Board

The Board unanimously recommends that stockholders vote, on an advisory basis, FOR the approval of the compensation of the named executive officers as described in the CD&A, the compensation tables and the narrative discussion of this Proxy Statement.

**PROPOSAL 3
ADVISORY VOTE ON FREQUENCY OF VOTE
ON COMPENSATION OF NAMED EXECUTIVE OFFICERS**

In accordance with Section 14A of the Securities Exchange Act, we are including in this Proxy Statement a separate stockholder vote on how frequently the advisory vote described under Proposal No. 2 — the “Advisory Vote on Compensation of Named Executive Officers”, or the “say on pay” advisory vote, should occur, which is referred to herein as the “frequency advisory vote”. We are providing stockholders the option of selecting a frequency of one, two or three years, or abstaining. As with the say on pay advisory vote, the vote described in this Proposal No. 3 is non-binding.

The Board has determined that providing stockholders with the say on pay advisory vote once every three years will be the most effective means for conducting and responding to the say on pay advisory vote based on a number of considerations, including the following:

- Our compensation program is designed to induce and reward performance over a multi-year period;
- A three-year cycle will provide investors sufficient time to evaluate the effectiveness of our short- and long-term compensation strategies and the related business outcome of the Company;
- A three-year vote cycle gives the Board and the Compensation Committee sufficient time to thoughtfully respond to stockholders’ sentiments and to implement any necessary changes to our executive compensation policies and procedures; and
- The Board will continue to engage with our stockholders on executive compensation during the period between stockholder votes. As discussed under “Communications with Directors,” the Company provides stockholders an opportunity to communicate with the Board, including on issues of executive compensation.

Based on the factors discussed, the Board determined to recommend that future say on pay advisory votes occur every three years until the next frequency advisory vote. Stockholders are not being asked to approve or disapprove the Board’s recommendation, but rather to indicate their choice among the following frequency options: one year, two years or three years, or to abstain from voting.

While the Board has determined that providing stockholders with the say on pay advisory vote once every three years is advisable, and therefore recommends that you approve a triennial vote, the Compensation Committee and the Board will consider our stockholders’ concerns and take them into account in determining how frequently the say on pay advisory vote occurs.

Recommendation of the Board

The Board unanimously recommends that stockholders select every “three years” on the proposal recommending the frequency of the say on pay advisory vote.

**PROPOSAL 4
RATIFICATION OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

At the Annual Meeting, the stockholders will be asked to ratify the appointment of Ernst & Young LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2011. Representatives of Ernst & Young LLP are expected to be present at the Annual Meeting and will have the opportunity to make statements if they desire to do so. Such representatives are also expected to be available to respond to appropriate questions.

Recommendation of the Board

The Board of Directors unanimously recommends a vote “for” the ratification of the appointment of Ernst & Young LLP as our Company’s independent registered public accounting firm for the fiscal year ending December 31, 2011.

OTHER MATTERS

As of the time of preparation of this Proxy Statement, neither the Board nor management intends to bring before the meeting any business other than the matters referred to in the Notice of Annual Meeting and this Proxy Statement. If any other business should properly come before the meeting, or any adjournment or postponement thereof, the persons named in the proxy will vote on such matters according to their discretion.

STOCKHOLDER PROPOSALS FOR THE 2012 ANNUAL MEETING

Our Amended and Restated Bylaws provide that advance notice of a stockholder’s proposal to be brought before the 2012 Annual Meeting of Stockholders must be delivered to the Secretary of our company at our principal executive offices not earlier than November 20, 2011 (one hundred fifty (150) days), and not later than December 20, 2011 (one hundred twenty (120) days), prior to the anniversary of the mailing date of the proxy materials for the previous year’s annual meeting. Our Amended and Restated Bylaws also provide that in the event that the annual meeting is advanced by more than 30 days prior to or delayed by more than 60 days after the anniversary date of the preceding year’s annual meeting, this advance notice must be received not later than the close of business on the later of (i) the 150th day prior to such annual meeting or (ii) the 10th day following the day on which public announcement of the date of such meeting is first made. In the event that the number of directors to be elected to the Board is increased and we do not make a public announcement naming all of the nominees for director or specifying the size of the increased Board by March 25, 2012, a stockholder’s notice required by our Amended and Restated Bylaws shall also be considered timely, but only with respect to nominees for any new positions created by such increase, if it shall be delivered to the Secretary of our company at our principal executive offices not later than the close of business on the 10th day following the day on which such public announcement is first made by us.
